

EN *sign 12M*

EN *sign 12M* is the newest Euronovate's tablet which allows to create and sign documents electronically in mobility.

The large 11.6" touchscreen together with the powerful Intel Core I5 chipset and Windows 8.1 Pro operating system, make **EN** *sign 12M* the ideal solution for professional applications and integration with systems and processed used in business.

The special digitizer on board and the pressure sensitive pen enable the signing of documents with legal validity, through the use of the handwritten electronic signature.

Compact and light weight together with a sturdy metal case, **EN** *sign 12M* supports 4G, WiFi and Bluetooth 4.0 connectivity and integrates a GNSS receiver (GPS) to assure the optimal use in mobility.

Furthermore, the cover with integrated keyboard (optional) and the rear support also allow you to transform **EN** *sign 12M* in a practical and useful laptop.

EURONOVATE

innovation is just connecting things

ENsign 12M

Product S
